Provide Workspace Name

Create Synapse workspace

Workspace details

Name your workspace, select a location, and choose a primary Data Lake Storage Gen2 file system to serve as the default location for logs and job output.

Workspace name *

Region *

Select Data Lake Storage Gen2 * ☒ From subscription ☐ Manually via URL

Account name * [Create new](#)

File system name * [Create new](#)

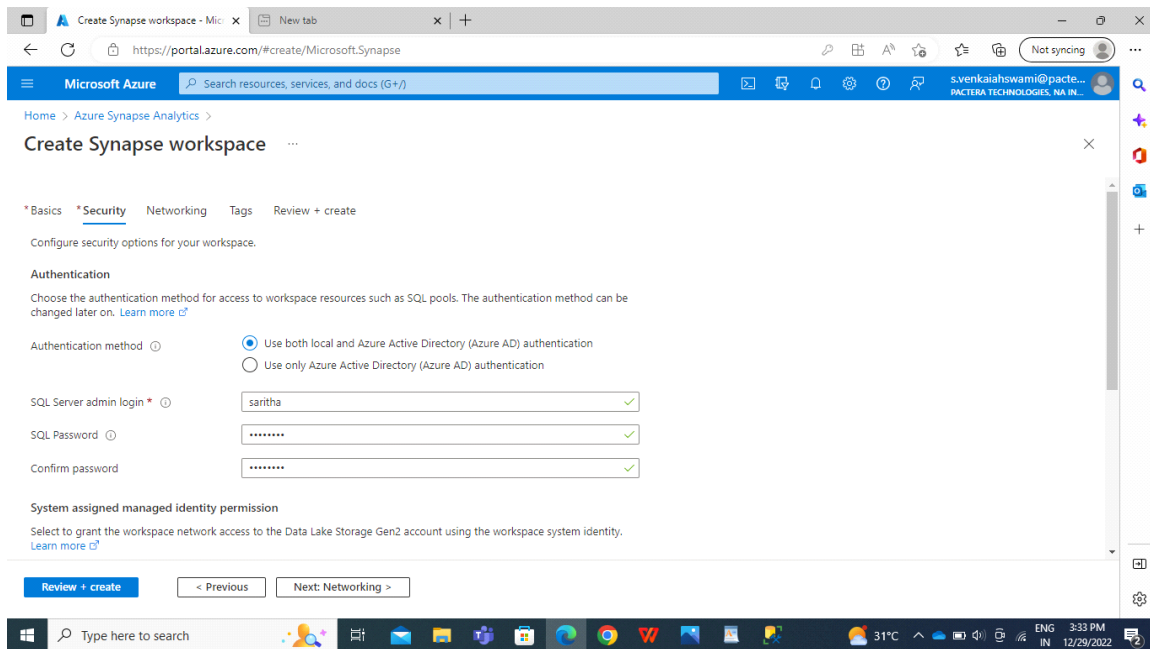

Additional configuration is required. After you create your workspace, perform these tasks:

- Assign other users to the **Contributor** role on workspace
- Assign other users the appropriate **Synapse RBAC roles** using Synapse Studio
